

ProKa 2400

Micronutrient Blend

Wastewater Treatment Aid

Primary Applications: Optimize the microbial processes associated with Anaerobic Wastewater Treatment Units, digesters, UASB's, lagoons and basins.

Benefits: Improve anaerobic removal efficiency, decrease effluent turbidity

ProKa 2400 is a proprietary blend of essential micronutrients that provide specific trace levels of minerals necessary to support anaerobic microbial processes and growth.

SPECIFICATIONS

Form: Liquid
Color: Amber
Specific Gravity: ~1.00
pH: 6.5-7.5
Storage: Store product in a dry place. Do not freeze.

DIRECTIONS

ProKa 2400 may be added to either the influent of, or directly to the treatment unit. Anaerobic reactors, add to the influent feed or pre-reactor mix box/tank. Consult with you 4G representative for specific dosing recommendations.

OPERATING CONDITIONS

pH 6.0-8.0
Temp. 2°C - 60°C (35.6°F- 140°F)

AVAILABILITY

ProKa 2400 is available in 55-gallon plastic drums

CAUTION

Employ nose, mouth and eye protection when handling this product. In the event of direct contact with the eyes or skin, flush the affected area with water.
